“ George.....

MY O'I buddy at Inland Steel Co. You were one hell of a guy, a real dynamo of a person! You look damn good in that picture, not bad at all! You took great care of me when I came over to # 4 A.C. Station as a young "green horn" as I tried to manage the mechanical parts warehouse which was a total disaster of which you warned me of internal politics and favoritism by certain people would never let it fix itself. (how so right you were) You taught me a lot of things while "learning the ropes" and I will never forget your favorite coffee pot percolating every morning while you stated the fact that you never ever washed that pot out because it was "seasoned" like a cast iron skillet. (LoL) as we had our first cups of coffee before the mechanics (mongols) would storm in to ravage the parts bins to get what they needed to begin their daily repairs for the generating station. We definitely had a lot of great times together during our years working there. Damn, you bring back a LOT of good memories. I wished I could have met and B.S. ed with you after we had left Inland and had some good laughs during our times working together. May God bless you and have you up in Heaven. Take care George.....

Thank you for sharing this! I can tell you, his tastes in "seasoned" coffee never changed over the years.

“ To my father,

You were an example to all who met you of what a kind, soft-spoken, humble man should be! Thank you for being my dad! I know you are at peace now. Love Always, Christine
